We are marching, we are coming  
Are you ready for some pain  
Death and pleasures  
Are you for ready for us

I bring the tools  
You bring the body  
Get over here let's play some games  
Don't be afraid you know what is coming  
Fornication

It's a crime against the state  
It's a promise naked and fragile  
Bells ringing  
Unknown alarm

Eating the misery, misery is eating us  
Bodies filled with blood  
Bags filled with drowning dogs  
Faces in pieces

Eating the misery, misery is eating us  
Eating the misery

We are marching, we are coming for you  
We are marching, we are coming for you
