Close your body around me
Entrap and embrace me, stick it in
My favourite girl, bavarian beauty from NÃ¼rnberg

Internal abrasions, three days trapped
Blasphemous being
Drink the stream of water
Bodies breaking apart

There's always time for human inventions in pain
There's always time for human inventions in pain

Sodomite will learn from special treatment
With special apparatus
Rotating drums, play them drums
Tear apart

Inquisition tickles, the flesh from your bones
Bodies pierced, tissue dying in the chambers of christ

Feedback girls, feedback birds, feedback girls
Iron gag, body bag, iron gag

There's always time for human aggression and pain
There's always time for human aggression and pain
