[Jay]

One two, one two, and I say  
I go by the name of Jam Master Jay  
And the Hollis Crew, we here to stay believe that

[D.M.C.]

Hey, as we let the music play  
Pay attention and listen as I mention  
A recital of mic to speeches  
From the book of the 40 Ounces  
Of the most powerful words ever spoken

[Run]

Topsy-turvy, they try to serve me  
Disturb me, curve me, boy they never heard me  
Slammin, jammin, I be bammin  
Makin takin breakin and rammin  
Run got a beef with those that cold think that  
Sun and the moon and soon you will drink that  
Wine for the rhyme that I'm, not a stink brat  
Run havin fun my son, just where the ink's at  
Up on the top I pop and drop, you feel  
So low you go for Joe you know, what the deal  
I might just strike tonight, and make you say  
(Run ran the place with bass and bust boo-tay)  
Go check the clock I rock your jock so hard  
Make you feel the deal is I'm top card  
Come in my face and bass and I might just  
And it's not n-n-not, n-n-not JUST ANOTHER GROOVE

Not just another..

[Jay]

Ah yeah, one two one two Jam Master Jay  
Hollis Crew here to stay, AUGGHH!  
Afros, 40 Ounce Crew in effect, word up  
Bout to break ya neck with another groove  
Kick it D

[D.M.C.]

Check out the lyric, hear it, cheer it, fear it  
So loud and clear that you can't come near it

Words are heard, I never speak the weak  
You pissed me off, now I'm takin a leak  
I kill at will, thrill, top bill  
I'm makin a mill, and damn I'm still  
Makin history on the M-I-C  
And for the young ladies, a nigga like D'll  
Be waxin taxin no relaxin breakin backs  
And bustin raps and I'll be strapped  
In my Cadillac, and you know that for a fact  
I'm strapped with rap but yo, I'm also  
Record breakin never flakin wide awake  
And titles I'm takin and I'll be makin  
Ladies groove cause I prove I can soothe when they  
OOOOOH, this one's called - NOT JUST ANOTHER  
GROOVE

Not just another..  
Not just another..

(Not just another one, not just another one)

[Jay]  
Deliverin, I'll deliver and give ya  
Whatcha been waitin (one two three) for/four  
This, is the gift of the gab  
That I had when I came out the lab  
The masterpiece was released  
Let's cease the beef and all those misbeliefs  
That we can't do our thing on a positive tip  
I'm tryin to tell ya  
It's been a long time -- we need a change  
Time for things to be rearranged  
Time to get our act together  
Whoever's clever or better - never let  
Another brother or sister get dissed cause they missed  
the  
Knowledge and wisdom and damn I wish ya  
Get with the Stop the Violence move  
Won'tcha hear me say peace, and it's not just another  
groove

[D.M.C.]  
Yeah Jay I just wanna say whassup to the brothers and  
sisters out there  
(Yeah.. it's not just another groove)
