The unsaid tone of weak despair
Fail to resonate
Frayed end of our binding threads
Will disintegrate
By the laws our physique state
Failure to communicate
None too sentient
Hear no, see no works it's magic
Against all function
Ongoing choices the trials will end
Filter the nonsense and laugh at what's left
Indecision/non-vision what matters taken away
Look at the shell that is you
Empty, fragile, weak
Soon the battle is over
Lost to apathy
So overcome with pointless tears
To test pain receptors
Nothing matters ever here
Put up a non-reaction
These eyes will never see
Covered up from reality
Look at the shell that is you
Empty, fragile, weak
Soon the battle is over
Lost to apathy
The unknown world that you deny
No priority
Cannot fail if you never start
How predictable
I want to know where did it end
For madness to start
Always the sceptic and never be part
Introvertive/non-descriptive
It matters not, not
Look at the shell that is you
Empty, fragile, weak
Look at the shell that is you
Empty, fragile, weak
Soon the battle is over
Lost to apathy
The shell that is you

Empty, fragile, weak
The battle is over
Lost to apathy
