(Danielle Fay/Bob Willingham)

Hey you  
The air is really thick tonite  
Hey you  
You wanna join your friends outside  
We don't care what we do is right as long as we do it  
We don't care if what we do is right cause we do it all  
night

Alright,  
All right you guys  
All right  
All right you guys

Hey you  
The city's at our command  
Hey you  
Gonna rock it like nobody can  
We don't care if what we do is right as long as we do it  
We don't care if what we do is right cause we do it all  
night

Alright,  
All right you guys  
All right  
All right you guys
