(Joan Jett)

Don't turn away, I know you feel it  
If you want me love, you don't have to steal it  
Your eyes they beg  
The tears you fashion up  
Gonna get involved in the nature of love

C'mon, C'mon  
You know you make me want you  
C'mon, oh c'mon

It's getting late, we made a start now  
I can't talk about that love anyhow  
Your eyes are wide, your body's shakin'  
I got the hives my soul is achin'

C'mon, C'mon  
You know you make me want you  
C'mon, oh c'mon

Hot throat, to race this love I have  
You're one of a kind, don't want no other  
Love is your thing you keep my style  
Clean me out with an easy smile

C'mon, C'mon  
You know you make me want you  
C'mon, oh c'mon
