(Joan Jett)

You know when you're close you really turn me on  
That's why I want you so bad when your gone, yeah  
Come on, come on and take me home  
Please stay with me and don't you leave me alone

You drive me wild  
Yeah yeah  
You know you do  
Uh huh  
You drive me wild  
You know I need you

You're on my mind always my one desire  
Lets get together and build us a fire  
Make me tremble make me shake  
Pleasin' each other rockin' till daybreak

You drive me wild  
Yeah yeah  
You know you do  
Uh huh  
You drive me wild  
You know I need you

Don't hold off do it, I need your lovin'  
I'm getting so hot I'm cooking like an oven  
My head is all filled with crazy thoughts  
Love like this just can't be bought

You drive me wild  
Yeah yeah  
You know you do  
Uh huh  
You drive me wild  
You know I need you
