Every single drop of all ya got!  
Every single drop of all ya got!  
Every single bit of all ya have!  
Every single bit of all ya have!

Every single drop of all ya got!  
Every single drop of all ya got!  
Every single bit of all ya have!  
Every single bit of all ya have!

Every single drop of all ya got!  
Every single drop of all ya got!  
Every single bit of all ya have!  
Every single bit of all ya have!

It has come to this,  
It has come to this!  
No other way,  
No other way!

Every single drop of all ya got!  
Every single drop of all ya got!  
Every single bit of all ya have!  
Every single bit of all ya have!

It makes the only sense,  
As it all awaits,  
To step in the hole,  
Kick time away!

If this is what it takes to be,  
In stopping this anomaly  
Curing every destiny into what it has to be  
Just this once, it's all I ask to be  
Turn me into stone if it can't be done  
If wrong starts walking, we all come running  
There shouldn't be a fight that is all in vain!

It makes the only sense

Kick time away

It has come to this,  
It has come to this!  
No other way,  
No other way!

It has come to this,  
It has come to this!  
No other way,  
No other way!

Every single drop of all ya got!

Every single drop of all ya got!  
Every single drop of all ya got!  
Every single bit of all ya have!  
Every single bit of all ya have!

Every single drop of all ya got!  
Every single drop of all ya got!  
Every single bit of all ya have!  
Every single bit of all ya have!

Every single drop of all ya got!
