What dwells in the ancient spell
The truth in the darkness beyond
Signs carved in millennium stone
Secret spawn of the shadow

Oh, i can feel the power
Curse of the dark rune

The past speaks thru the signs
Whispering from the forgotten
The triumphant flame will rise
As the weak now die

Oh, i can feel the power
Curse of the dark rune

Curse == let the wrath free
Curse == the curse of the dark rune

Curse == let the wrath free
Curse == the curse of the dark rune
