(Peace, love, happiness)

I came here from outer space, a planet called 808
In the Galaxy of Funk, where the robots gravitate
A message came from NASA, an urgent SOS,
"The rock don't talk, hip-hop is cold, and we need a
brand-new beat."

[Chorus:]

I bring the beat
[x8]

I am the UFO: United Funk Official
Commanding you to bust a move or suffer with my
missiles
No harm is my intention, but if you disobey
My wrath will stop all booty pop and blow this world
away

[Chorus]

Take me to your DJ
(Peace, love, happiness)
Take me to your DJ
(Five, four, three, two, one)
Commence shake down

I bring-- I bring,
I bring the beat
I bring-- I bring
I bring the beat

[Chorus]

[x4]
