[verse 1]

I'm giving in, into temptation
Wanna put that key in your ignition
Skin to skin inside de session
The heat is on and it is rising
I pull your close, kissing and caressing
Don't even care who is watching

[pre-chorus]

Girl I've been watching you
And you've been watching me
So let's get this thing started
We're ready for us to be

[chorus]

Skin to skin, body to body
When we're dancing inside de party
Skin to skin, body to body
The way you move it woman it drives me crazy
Skin to skin, body to body
When we're dancing inside de party
Skin to skin, body to body
I don't even wanna see another lady

[verse 2]

No retreat, no surrender
Sweat from the heat like we just tok a shower
Your heart beats when I pull you closer
Please DJ just keep dis record bumping
We're on the floor like it's love we're making
I hope this dance could be everlasting

[pre-chorus]
