

Rushmore "Jersey Summer"

Well,
Set free from school plans
Of beach trips
And tours with my friends.
The best days of our lives.
A broken down car
In a town we never heard of,
Things seem useless
Just a waste of time.

So take me to the places
That you wanna go the most
And make the most of your stay.
From left fields to movie screens
We'll make our own memories
And I hope they last
Jersey summer.

Acoustic guitars
In the parking lot after a show
And the hours of preservation.
A kiss on the lips
From a girl
Shit I think I'm in love,
I hope it wont show but I'm oh so anxious.
