And I try to make you think that I am strong
The fact of the matter is that I am not
And all that I want and all that I need is you
And it hurts so bad
And I know just what I lost
I am not stupid
But I go
Along like I don't care
But it's tearing me apart
And I try so hard to forget to you
But who am I kidding
Those pretty blue eyes are gonna be the death of me
But there is no forgetting
What I had
And what I lost
What I want
And who I love
There is no forgetting
What we had
And what we lost
I am here to say, it's done
