How long is forever? Do we need to know?  
Are we strong enough to see?  
Why we're all here together, where do we go?  
Do we care 'bout who we're gonna be?

When we all have to face that there's no world in it's places  
We will say - Let's cry it out!  
When there's no hope for better and the truth doesn't matter  
We will say - Let's cry it out!  
Let's cry it out

How long are we given? How far will we go?  
Are we strong enough to say?  
Are we blessed or forgiven as we're on the way?  
And will we care enough to leave or stay?

When we all have to face that there's no world in it's places  
We will say - Let's cry it out!  
When there's no hope for better and the truth doesn't matter  
We will say - Let's cry it out!  
Let's cry it out

Let's cry!

When we all have to face that there's no world in it's places  
We will say - Let's cry it out!  
When there's no hope for better and the truth doesn't matter  
We will say - Let's cry it out!

When we all have to face that there's no world in it's places  
We will say - Let's cry it out!  
When there's no hope for better and the truth doesn't matter  
We will say - Let's cry it out!  
Let's cry it out, let's cry
