I'll follow the night to wake up the day
To be with you (Na na na na na na ney)
You'll give me the light
I need on my way, you'll do (Na na na na na na ney)

I'll follow the dream we both have seen
You know it's true (Na na na na na na ney)
I'll follow the light to breakthrough the night
For you (Na na na na na na ney)

I'm all alone as the night is covering the sea
Behind the storms I am lonely but I know I'm free
An endless road fading down the hill ahead of me
It makes me strong, it shows the way to where I wanna be

I'll follow the night to wake up the day
To be with you (Na na na na na na ney)
You'll give me the light
I need on my way, you'll do (Na na na na na na ney)

I'll follow the dream we both have seen
You know it's true (Na na na na na na ney)
I'll follow the light to breakthrough the night
For you (Na na na na na na ney)

You'll take my hand, 'cause the road will bring me back to you
You'll understand everything I wanna say or do
It just takes time, we remember where we wanna be
You will be mine, you will tell me that you stay with me

I'll follow the night to wake up the day
To be with you (Na na na na na na ney)
You'll give me the light
I need on my way, you'll do (Na na na na na na ney)

I'll follow the dream we both have seen

You know it's true (Na na na na na na ney)
I'll follow the light to breakthrough the night
For you (Na na na na na na ney)

I'll follow the night to wake up the day
To be with you (Na na na na na na ney)
You'll give me the light
I need on my way, you'll do (Na na na na na na ney)

I'll follow the dream we both have seen
You know it's true (Na na na na na na ney)
I'll follow the light to breakthrough the night
For you (Na na na na na na ney)

I'll follow the night
I'll follow the night
