I knew it wasn't meant to last
We couldn't be the choice of luck
And now I'm looking in the past
But it's the present, where I'm stuck

And there is no pain anymore
And nothing I can blame you for
It's just I'm missing you so much
I miss the energy of your touch

Like a wounded bird in the lonely sky
I just can't forget that I used to fly
Take me back, take me back to the moon of dreams
Bring me back, bring me back to the moon of dreams

Like a frozen tear on a shaking lip
I am left in fear and it cuts so deep
Take me back, take me back to the moon of dreams
Bring me back, bring me back to the moon of dreams

I knew where we were going to
It was the way we didn't choose
We knew what was and wasn't true
But still we thought we couldn't loose

Well, you are not mine anymore
But nothing I am sorry for
And I'm still loving you so much
I miss the energy of your touch

Like a wounded bird in the lonely sky
I just can't forget that I used to fly
Take me back, take me back to the moon of dreams
Bring me back, bring me back to the moon of dreams

Like a frozen tear on a shaking lip

I am left in fear and it cuts so deep
Take me back, take me back to the moon of dreams
Bring me back, bring me back to the moon of dreams

T-Pain:

The daytime, the sunlight, I will never love again
We tried to work it out, so many different ways
But we could never be friends

And when the sun goes down and I think about you
And how we used to be, then it rises again and I loose a friend
And then there I am again waiting on the moon of dreams

Like a wounded bird in the lonely sky
I just can't forget that I used to fly
Take me back, take me back to the moon of dreams
Bring me back, bring me back to the moon of dreams

Like a frozen tear on a shaking lip
I am left in fear and it cuts so deep
Take me back, take me back to the moon of dreams
Bring me back, bring me back to the moon of dreams

T-Pain:

Take me back, take me back to the moon of dreams
Bring me back, bring me back to the moon of dreams
Take me back, take me back to the moon of dreams
Bring me back, bring me back to the moon of dreams
The moon of dreams
