

Ruslana**"Wild Energy"**

Visit "[Wild Energy](#)" on MotoLyrics.com

In the era of blind generations
In cold hands of basic temptations
Under pressure of fake sensations
On the edge of stolen time

We have lost this feeling of being free
We are longing for the wild energy
Your heart is the only guide light you need
And it will tell you, how to live

No you won't fall
Cause you can fly
If you go for my wild energy
If you go for it, if you go for it

No you won't fall
Don't even try
When you go for my wild energy
When you go for it, when you go for it

In the desert outside of nowhere
On the street of broken dreams
You are fighting over and over again
But it seems that you're alone

You're feeling so low, but you can't see
You're tied to the cables of dark tranquility
They ask me to save you, to take you Overground
To come here and tell you - don't be afraid of life

No you won't fall
Cause you can fly
If you go for my wild energy
If you go for it, if you go for it

No you won't fall

Don't even try
When you go for my wild energy
When you go for it, when you go for it

You're feeling so low, but you can't see
You're tied to the cables of dark tranquility
They ask me to save you, to take you Overground
To come here and tell you - don't be afraid

No you won't fall
Cause you can fly
If you go for my wild energy
If you go for it, if you go for it

No you won't fall
Don't even try
When you go for my wild energy
When you go for it, when you go for it

When you go for it
When you go for it
When you go for it
