Tonight it's on
Tonight is the night
We can't go wrong
We'll dance in the moonlight
Just look at me
You know what I know
See what I see, go where I go

[Chorus:]
Hey Hey
What about going wild with me
What about passion breaking free
What about falling down and down
And down to fly again

What about going wild with me
What about who you want to be
Do you know you have to cry
And cry and cry to love again

I want to try
The taste of your lips
I want to fly
Don't care where this way leads
Just take my hand
And feel what I feel
And see what's meant to be in the end

[Chorus:]
Hey Hey
What about going wild with me
What about passion breaking free
What about falling down and down
And down to fly again
