Behind the clouds
Beyond the deep shadows that surround us
Another world is growing
Behind the walls made of stone
Beyond the fences holding us
Another life is waiting

Never listen to their lies
Don't give the dark side
What it wants
Never trust their evil smile
Don't ever let your fear rule
Don't hide it from the cruel

Chorus:
We all will break our ties
And open up our eyes
See a new age world
We will rule our lives
And keep up our strive
For a new age world
The universe of light

After the night
Far beyond the evil men surrounding us
Another world is growing
After this war and far beyond the guardians who are
watching us
Another life is waiting

Never listen to their lies
Don't give the dark side
What it wants, never
Never trust their evil smile
Don't ever let your fear rule
Don't hide it from the cruel

Chorus
