[Run-D.M.C.]

Tenement buildings, and skyscrapers

[Run]

Are polluted and often invaded
with troubled hearts, and weakened minds
Living their lives and hoping to find
the golden key, to prosperity
Never have a grip on reality
This makes day to day living hard
Trumpin your fate, never peepin the card
You just goin through life without a trace
when the answers you seek are in front of your face

[both] You're blind! [2X]

[Run] Tell 'em D!

[D.M.C.]

You're headed for the top, or so you think
But that's not true for you, your life is on the brink
of self-destruction, total corruption
You better get out or die from consumption
Sweat for a dollar, to get nothin back
Cause at the end of the week, you still get taxed
You'd even sell your soul to make your life correct
But with the rate of inflation you should eat your check
So you try to make a hustle, to get ahead
But the only thing you manage is to stay in the red
Coppin from John, to sell to Rex
And your jones for success has put your life in check

[both] You're blind! [2X]

[Run] And you can't see

[DMC] You need to wear some glasses

[Run] like D.M.C.

[both] You're blind!

[Run]

So you think the facts means you can't win
So you devote your time to a life of sin

[D.M.C.]

Hangin out late is how you survive

Makin deals, talkin jive, and tellin lies

Pressure beatin you down

[Run] Like you're not handlin

And all the while, your mind is ramblin

[Run] About bein fly

Or even sly

[both] And bein held low in the public eye

You decide these things but you don't know why

[both] You're standin on a corner cold playin the post

Cause another sucker you were chillin the most

[both] You're blind! [2X]

[Run] Yo you can't see

[DMC] You need to wear some glasses

[Run] like D.M.C.

[both] You're blind! [2X]

[D.M.C.]

You (Run) round talkin bout what you hate

Livin your life just to perpetrate

You think your style is chill, because you're always cold

with your platform shoes and your fake gold

[Run] So you think you're bad

Sheer dynamite

But if you only knew the crew called you freak's delight

[Run]

Wearin the tightest jeans, and shortest skirt

You think you're cold chillin, lookin like a jerk

No matter what you do, come out second rate

[DMC] Thinkin you're on time but you're already late

You're blind

[Run] You're blind! And you can't see

[DMC] You need to wear some glasses

[Run] like D.M.C.

[both] You're blind!

[Run] And you can't see

[DMC] You need to wear some glasses

[Run] like D.M.C.

[both] You're blind!

[DMC] The moral to the story may not be clear

[Run] And the only way to catch it is to lend an ear

[DMC] Stop frontin so hard

[Run] Why don't you peep your card?

[DMC] And your goals in life may not be far

Because these words I say are meant for you to hear

So if you bust these facts you will persevere

[both] You're blind! [2X]
[Run] And you can't see
[DMC] You needs to wear some glasses
[Run] like D.M.C.
[both] You're blind!
[Run] And you can't see
[DMC] You need to wear some glasses
[Run] like D.M.C.
[both] You're blind! [2X]
[Run] And you can't see
[DMC] You need to wear some glasses
[Run] like D.M.C.
[both] You're blind! [2X]
[Run] And you can't see
[DMC] You need to wear some glasses
[Run] like D.M.C.
[both] You're blind! [2X]
[Run] And you can't see
[DMC] You need to wear some glasses
[Run] like D.M.C.
[both] You're blind! [2X]
[Run] And you can't see
[DMC] You need to wear some glasses
[Run] like D.M.C. [music fades out]
