All rise  
I'm the one to decide your price  
You try to hide  
I see fear in your bleeding eyes

Hate me  
'Cause I see through your lies  
I'll make you feel that you're alone  
Hate me  
'Cause your truth is a sacrifice  
And the destiny is unknown

This game we play  
Makes the world around us fade away  
Live for today  
It's hard to find the perfect way

Hate me...

The destiny is unknown  
Can you face it - can you face it  
You fight against it all alone  
Can you face it - can you face it  
No!

Hate me...
