

Rust **"Pray"**

Visit "[Pray](#)" on MotoLyrics.com

Teach me words of wisdom
Make me think your way
Preach about truth and mission
Lead us all astray

Every single night
Your sick dreams force you to stay awake
The sins and pleasures you desire
Make your life a fake

Pray - you pray
But you're not anything you say
Betray - you betray
Betray yourself every day

Despise my weakness
Tell that I'm not worth a try
Turn your back on me and
Make me wonder why

Keep your smile
While they spit on your lying face
And smile your glory
In the name of amazing grace

Pray - you pray...

Betray yourself every fucking day

Teach me words of wisdom
Make me think your way
Hide your black desires
In the uncertain gray

Pray - you pray...
