

Rust **"Riverside"**

Visit "[Riverside](#)" on MotoLyrics.com

Riverside - a place to hide
The home of peaceful minds
The history unwinds
Make it flow - the answers you don't know
These feelings I can't show
Just let the silence grow

I stand here and I don't know nothing
These words run away and I'm hunting
I stand here and I don't know nothing
Don't know nothing
Don't know nothing at all

Riverside - a thousand times
Been standing in your lines
Been reading all your signs
Those dreams you see
They float away
Grow stronger every day
And make me want to stay
Want to stay, make me want to astray

I stand here and I don't know nothing...

Riverside - a place to hide
You taste so bitter inside me
Riverside - don't betray me
Don't let me drown in your shining eyes
Riverside - just one more ride
I want your water to guide me
Riverside - don't betray me
Don't let me drown my mind in your eyes
