Signed, dealed and delivered
A package containing my heart
To open, remove the wrapper
But please, don't tear it apart

You tore out this heart when you left me
You left me alone and so blue
I'm sending it special delivery
Please handle with care, it's for you

Signed, dealed and delivered
A package containing my heart
I send it to you as a token
I'm sorry we're so far apart

It's all that I have to offer
But, darling, you know that it's true
Signed, dealed and delivered
The postman will bring it to you

I thought perhaps you would keep it
Just for awhile, don't you see
Oh, darling, please keep it forever
Without you, it's no good to me

Signed, dealed and delivered
A package containing my heart
I send it to you as a token
I'm sorry we're so far apart
I'm sorry we're so far apart
