It makes no difference where I turn
I can't get over you and the flame still burns
It makes no difference, night or day
Shadow never seems to fade away

And the sun don't shine no more
And the rains fall down on my door

Now there's no love
As true as a love that dies untold
And the clouds never hung so low before

And it makes no difference how far I go
Like a scar that hurt will always show
And it makes no difference who I meet
It's just a face in the crowd in a dead end street

And the sun don't shine no more
And the rains fall down on my door

Well these old love letters
Well I just can't keep
'Cause like a gambler says,
You read 'em and weep

And the dawn don't rescue me no more
Without your love, I'm nothing at all
Just like an empty hole
