Lord, I want to know You more
Follow You with all my heart and soul
Lord, I want to know Your voice
Lead me in Your way everlasting

Show me Your ways
Teach me and guide me in Your truth, my Savior
Confide in me speak mysteries
My heart is longing for Your touch
For only You can fill this need in me

Lord, I want to know You more
Follow You with all my heart and soul
Lord, I want to know Your voice
Lead me in Your way everlasting

You go before me

Open doors that lead me to Your faithfulness
Whisper in me so heavenly
My heart is longing for Your touch
For only You can fill this need in me

Yeah, everlasting to everlasting
Age to age, everlasting to everlasting
Generations will seek Your face

Lord, I want to know You more
Follow You with all my heart and my soul
Lord, I want to know Your voice
Lead me in Your way everlasting

Lord, I want to know You more
Follow You with all my heart and my soul
Lord, I want to know Your voice
Lead me in Your way everlasting, everlasting
