Looking for light on the darkest of days  
When life disappoints you in too many ways  
But you forgot the part  
There's light in the dark  
There's gotta be one more than zero real hearts  
The notes are all wrong but you still sing along  
Wondering where the day has gone  
Clutter comes confuses and invades  
The junk in your yard and the brain you can't change  
You're out of control  
You don't want to go  
It's hard to stay warm when the cold's in your bones  
Radio radio sing me something I know  
Let's go let's go whoa
