Don't be afraid  
Because there is no escape  
And it won't be long now  
Won't be long now  
They got you thinking  
What you wanna believe  
Just to fall with no better way  
When you wear the right clothes  
Sing the right songs  
Buy it and turn it on  
When you date the right crowd  
Drive the right car  
Tune in and plug it on

Came looking here for answers  
And all you found was  
Questions for forgiveness  
We're giving ourselves away  
Human life replacement  
Love is gone to waste  
Questions for forgiveness  
We're giving ourselves away  
Human life replacement  
Love is gone to waste  
But now  
We're finding out  
What we knew better  
No number can ever replace me  
We're finding out  
What we know better  
No number can ever replace me

First comes to school  
Then comes the job  
Wife and two kids  
And a family car  
We're all born in line  
And waiting to die  
And forward a block on the wall  
And another new award  
On a corporate statistic

Of a government job  
Well I don't need no reading  
For the beat of my heart  
You nihilists working over  
Because you're tooting your horn  
Because your feeding is to  
Strangle art in every form

Came looking here for answers  
And all you found was  
Questions for forgiveness  
We're giving ourselves away  
Human life replacement  
Love is gone to waste  
Questions for forgiveness  
We're giving ourselves away  
Human life replacement  
Love is gone to waste  
But now  
We're finding out  
What we knew better  
No number can ever replace me  
We're finding out  
What we know better  
No number can ever replace me
