Suddenly well I'm in deep
I wanna take you out and enjoy the jealousy
Leave your bag and baby grab your keys
Tonight we'll own this town
Look down, these are our streets

You said you like my songs
Well you can take this one
Without it I'll be okay
They're all about you anyway

Suddenly well I'm in deep
I wanna take you home and undress you with my teeth
Close your eyes so you can see
That with my voice in your ear
I'm here and always will be

You said you like my songs
Well you can take this one
Without it I'll be okay
They're all about you anyway

You said you like my songs
Well you can take this one
Without it I'll be okay
They're all about you anyway

Do you like this song?
If not I'll write a new one
Without it I'll be just fine
I'd write another one for you anytime
