A new adventure to a place we can't find  
With our hands in each others  
And a new world in our minds  
When i'm inside you baby  
Your lips complete me  
I'm intrigued by your design

The price of fame it don't come cheaply  
Could you point me to the meaning  
Could you tell me what's in store?  
We all want to live forever  
Locked inside your myths complete me  
I'm intrigued by your disguise  
We need a rager  
So we can burn it to the ground,  
It's contagious we can't slow down  
We need a rager,  
So we can burn it all to the ground  
It's contagious we can't slow down

The picket line & the placed sign  
Don't mean nothing in the modern time  
The past will die before the future's born  
If living's what you're looking for  
Because they're the liars, cheats, victors in defeat,  
A hollow eyed lover in a dirty magazine  
They are the loose stomach staple  
In a money machine add a little power  
And you know they'll say anything

Locked inside your myth completes me,  
I'm intrigued by your demise  
We need a rager,  
So we can burn it all to the ground  
It's contagious, we can't slow down

Mother Culture money dream  
Don't sell me anything  
Market facet free for all  
You can never steal our love!

Yeah, said you never mean it,

I'm bleeding in here from my open wounds  
All that we gain is something  
That we can not create  
Oh I never  
No I never could come over to you

Locked inside your myth completes me  
I'm intrigued by your disguise

Take as the leaves vanish  
They came to steal the sun  
Quick like a laser beam  
Let's fall in love
