hangin onto me like a disease

Jaime Skcratch says she needs it,

but she don't know she got all that she needs

u say that I need it,

need to find some of that clarity

i say that i got it,

hangin out in my town of s.b.

and its alright

we ain't never gonna leave (this town)

they'll try to defeat you

try to make you go and get up and leave

don't ever let them beat you

what you got is all that you need

that's right!
