I'd like to say that I tried  
Fits in with all the suggestions and lies  
And empty tables with food untouched  
I couldn't see the future, I liked the past too much

And I've been going door to door  
Like I got something to sell  
Wandering like a fool  
Through the halls of a blue hotel

So go on and rain down on us  
Go on and rain  
Go on and rain down on us  
~Cause I give up, ooh, I give up

Well, there's something about her that's cold  
Blowing through the trees, leaving me raw  
The words come out and I get confused  
I get shattered like a light bulb in an October moon

And she's inside me like a secret  
And I got no one to tell  
Wandering like a fool  
Through the halls of a blue hotel

So go on and rain down on us  
Go on and rain  
Go on and rain down on us  
~Cause I give up, ooh, I give up  
I give up, ooh I give up

So go on and rain down on us  
Go on and rain  
Go on and rain down on us  
~Cause I give up, ooh, I give up  
I give up, ooh I give up

I give up, ooh I give up  
I give up, ooh I give up
