Everytime I turn around
A man tries to get me down
I just can't see your face
I'm blinded by the sun
Living on the run
And I can't remember this place

Take me to the other side
Wind won't you let me ride
Take me to the other side, pretty mama
And on the wind won't you let me ride

Everytime I turn around
A man's trying to get me down
I just can't see your face
I'm driving on the river
Tires on my mercedes goin' (?)
It's time to put the hammer down

Won't you take me to the other side
Let me go when I'm high
Take me to the other side, pretty mama
And on the wind won't you let me ride

Cowboy's your given name
Nothing ever stays the same
'Cept the rain falling down
You can't keep from goin'
No the wind is always damn cold
It's time to put the hammer down

Won't you take me to the other side
Let me go when I'm high
Take me to the other side, pretty mama
And on the wind won't you let me ride

Won't you take me to the other side
On the wind won't you let me ride
