"Wishing Well"

Visit "[Wishing Well](#)" on MotoLyrics.com

I've been wasting my time, I don't need no more rain
I've been gone for so long I think the devil lost my
name
I took a little ride on a heartache highway
Lovin' from you honey keeps me moving on my way

Chorus:
When I go astray
Lose my way
Honey I go down
To the wishing well

Standing at them cross roads I've been begging for
change
I said I've been gone for so long I think the devil lost my
name
The big wheel is burning up the rubber and the highway
is killing time
This here gut less six string eases my mind

Chorus: repeat

I said I've been wasting my time, I don't need no more
rain
Blood drips from my knuckles cause it helps ease the
pain
Standing at them cross roads I've begging for change
I said I been gone for so long I think the devil lost my
name
