Nothing blinds you like the sun
But when you stare into his eyes
Nothing finds you like someone
Whos the devil in disguise

Well girl you keep me rollin' on
Like an all night train

When it's all or nothing
There ain't no other way
Well baby give me something
I can take with me today
Oh take with me today yeah

Something happened long ago
Something you can't leave behind
Im searching for a perfect soul
That I may never find

When it's all or nothing
There ain't no other way
Baby give me something
I can take with me today
Oh take with me today yeah

Take with me today
Why don't you take with me
Why don't you take with me

When it's all or nothing
There ain't no other way
Baby give me something
I can take with me today
Take with me today yeah

Take with me today
Why don't you take with me today
