Looking back if we had one more night to spend
I would steal every second I would never let it end
Like the taste of your lips what I'd give to drink you in

I will always remember and I know that it goes with me
I will never leave this part of you behind

With you gone it plays on it's so hard to move on
I want to but I wanted you
Now you stay in my head
I'm not over you yet
I try to but I wanted you

What I miss overall is a smile I can't replace
'Cause it starts in your eyes and
It filled up all the space in my heart
I know I will always remember and
I know that it goes with me
I will never leave this part of you behind

With you gone it plays on it's so hard to move on
I want to but I wanted you
Now you stay in my head
I'm not over you yet
I try to but I wanted you

Make no mistake I'm here in this place
And I'm waiting around for you
And I can't help it I'm still searching
For some way to get through

I will always remember

With you gone it plays on it's so hard to move on
I want to but I wanted you
Now you stay in my head
I'm not over you yet
I try to but I wanted you
I wanted you
I will always remember
I will always remember
