I feel the wind as it carries me, above, above my soul  
Into a land that I've always dreamed of  
A world where we all could soar  
It's a waterfall, I can taste it all, with every drop of rain  
I brought life to a picture I saw

Chorus:

So come stay the night  
You're welcome as long as you don't burn out the light  
The candle I've been keeping on my mantle  
So your safe at night, I can't deny  
Oh, I've been waiting all my life to find  
Oh yeah, I've been waiting all my life

The mountains sleep as the tides slow down (sleep at night)  
I can feel the breeze; it's all a scene I've been planning out  
You can choose if you want to believe

Believe me now, you thought some how

You never knew this place was found  
So won't you find honesty inside

Yeah, here the sun won't fall, nor the moon or stars  
Cause all you have are the pictures you've kept  
To remind you of it all

Chorus

I've been hiding, well who I am for so long  
Well and I know that I just can't keep holding on  
I just can't keep holding on for long

No, No

Chorus
