English Translation

My Memory At that moment I remembered it all
When I see those memories they seem so small..
You're far away in a place that I can't reach
I can't wait for these words of love to be said

I really was to blame
Will I ever get to meet you again?
I can't even imagine that
I still love you and now I'll confess that to you
I wanna love you forever

It's not too late
Be with me forever

For a long time you've been in my heart
Much time passes and still you're far away, but I will
stay alive

I really was to blame
Will I ever get to meet you again?
I can't even imagine that
I still love you and now I'll confess that to you
I wanna love you forever
It's not too late
Be with me forever
