Whole lotta nothing

Oh yeah yeah

Take me on a spin

Do your thing

But you can't get in

No no

Ain't about to give it all up

Just because you pull up in your drop-top

Gotta do it right

Boy you're moving too fast, rewind

Oh oh

If you wanna slip in my bed

Then you want what you can't get

I know you got it

And you're coming back to mine

Just forget it

Don't go wasting my time

You gotta be a man who's there for me

Somebody who will always care for me

No doubt in what you've gotta do

No class, no pass

No room for you
If you wanna be my Mr. Right
You've gotta know what I need tonight
Be mine, can't be no other way
No creep, no peep
And a whole lotta nothing
Take me on a cruise
Give me something that I can't refuse
Uh oh
Takes more than a good time
To let you know that you're my kind
I know you got it
And you're coming back to mine
Just forget it
Don't go wasting my time
You gotta be a man who's there for me
Somebody who will always care for me
No doubt in what you've gotta do
No class, no pass
No room for you
If you wanna be my Mr. Right
You've gotta know what I need tonight
Be mine, can't be no other way
No creep, no peep
And a whole lotta nothing

No creep, no peep

No creep, no peep

No creep, no peep

And a whole lotta nothing

Don't go wasting my time

You gotta be a man who's there for me

Somebody who will always care for me

No doubt in what you've gotta do

No class, no pass

No room for you

If you wanna be my Mr. Right

You've gotta know what I need tonight

Be mine, can't be no other way

No creep, no peep

And a whole lotta nothing

You gotta be a man who's there for me

Somebody who will always care for me

No doubt in what you've gotta do

No class, no pass

No room for you

If you wanna be my Mr. Right

You've gotta know what I need tonight

Be mine, can't be no other way

No creep, no peep

And a whole lotta nothing

Don't go wasting my time

You gotta be a man who's there for me

Somebody who will always care for me

No doubt in what you've gotta do

No class, no pass

No room for you

If you wanna be my Mr. Right

You've gotta know what I need tonight

Be mine, can't be no other way

No creep, no peep

And a whole lotta nothing
