"Anytime Anywhere"

Visit "[Anytime Anywhere](#)" on MotoLyrics.com

I know life sometimes can spin your head around
Don't let the world get on top of you, turning you upside
down
Better days are coming
Just remember one thing
Wherever you are, near or far
You know you're never alone

Anytime Anywhere
You can call on me and I'll be there
Someone you can rely on (can rely on)
Be a shoulder you can cry on (you can cry on)
Anytime Anywhere
You can trust in me
I'm always there
To give you all my lovin' (all my lovin')
Say the word I will come running (I'll come running)
Anytime you needs me to
I'll be there for you!

Sometimes you can't see the light, though it's shining
all around
It' alright the future is bright, and the walls will come
tumbling down
Better days are coming (better days are coming)
Just remember one thing (just one thing)
Wherever you are, near or far
You know you're never alone

Anytime Anywhere
You can call on me and I'll be there
Someone you can rely on (can rely on)
Be a shoulder you can cry on (you can cry on)
Anytime Anywhere
You can trust in me
I'm always there
To give you all my lovin (all my lovin)
Say the word I will come running (I'll be running)
Anytime you needs me to
I'll be there for you!

Anytime Anywhere say the word I'll be there

I'll be your light, be your friend
I'll be there to the end
Anytime Anywhere say the word I'll be there (I will be there)
I'll be your light, I'll be your friend
I'll be there till the end

Anytime Anywhere (anywhere)
You can call on me and I'll be there (you will be there)
Someone you can rely on (can rely on)
Be a shoulder you can cry on (you can cry on)
Anytime (anytime) Anywhere (anywhere)
You can trust in me
I'm always there (I'm always there)
To give you all my lovin (all my lovin)
Say the word I will come running (I'll be running)
Anytime you needs me to
I'll be there for you!

Anytime Anywhere say the word I'll be there
I'll be your light, be your friend
I'll be there to the end
Anytime Anywhere say the word I'll be there
I'll be your light, be your friend
I'll be there to the end
