Back Off, get outta of my face
Cause I don't wanna have to stop it and tell you why
Just leave me alone
Shut up, keep it down, I don't wanna hear
I only wish it I could make you all disappear
Just leave me alone

Cause I
I don't care what you say
So go home, you're not welcome here today
I don't wanna hurt your feelings
But Back Off, cause I'm doing it my way
There's nothing left for me to do
So go home, cause I'm sick and tired of you
I know that you've got your reasons
But Back Off, cause I'm doing it my way
Back Off, cause I'm doing it my way

It's outta hand, why can't you see
I'm trying to tell you, but you're making it hard for me
Just leave me alone
Get lost, cut it out and let me be
There's no excuses for the way that you're pushing me
Just leave me along

Cause I
I don't care what you say
So go home, you're not welcome here today
I don't wanna hurt your feelings
But Back Off, cause I'm doing it my way
There's nothing left for me to do
So go home, cause I'm sick and tired of you
I know that you've got your reasons
But Back Off, cause I'm doing it my way
Back Off, cause I'm doing it my way
