Three become as one
Having Fun
Life's full of possibilities
Got the dream everything in this team
Working to what we believe

Mirror Mirror, tell us the answer to our prayers
Bringing us together, nothing can compare

This is Our Life
We're on a roll, good to go
Sisters hanging so tight
Riding high, looking fly
This is Our Life
Super Queens, living dreams
Walking side by side
& the crew coming through
Sisters this is our life

Day and night
Got a vibe, time to ride
As one by one we hit the road
We'll be strong, holding on
Cause we belong
Always gonna stand by you (and with a little attitude)

Mirror Mirror, tell us the answer to our prayers
Bringing us together, nothing can compare

This is Our Life
We're on a roll, good to go
Sisters hanging so tight
Riding high, looking fly
This is Our Life
Super Queens, living dreams
Walking side by side
& the crew coming through
Sisters this is our life

Everybody's gonna know my name
Living Dreams
Walking side by side

Nothing's ever gonna be the same
Coming through
Sista's this is our life

No one used to understand me, thought that I was just
a freak (inside you cried)
Thought that I would be a failure,
Never used to notice me (you thrived, survived)
But look at us now

This is Our Life
We're on a roll, good to go
Sisters hanging so tight
Riding high, looking fly
This is Our Life
Super Queens, living dreams
Walking side by side
& the crew coming through
Sisters this is our life

Everybody's gonna know my name
Good to go, sista's hanging so tight
Nothing's ever gonna be the same
This is our life
Everybody's gonna know my name
Living Dreams
Walking side by side
Nothing's ever gonna be the same
Coming through
Sista's this is our life
