You want the cool of Arthur Fonzarelli,  
You wanna jump the shark every time,  
You wanna move just like Gene Kelly  
When you're ready to try!  
You want the big deals like, Trump and Murdock,  
You wanna smash the pie in the sky, you wanna croon  
just like Sinatra  
When you're try!

(Chorus)

Nobody but you, is ever gonna make it happen,  
Nobody but you, is ever gonna get in the way.  
Nobody but you, is ever gonna make it happen.  
No, No nobody but you, stands in the way.

You want wanna bluff them, just like Brett Maverick,  
You wanna win the girl every time, you wanna paint it  
just like Picasso.  
When your ready to try!  
You wanna write like Lennon and McCartney, you  
wanna see your name in lights  
You wanna floor it just like Andretti.  
When you're ready to drive!

(Chorus)

Nobody but you, is ever gonna make it happen,  
Nobody but you, is ever gonna get in the way.  
Nobody but you, is ever gonna make it happen.  
No, No nobody but you, stands in the way.

You wanna heal souls like Mother Teresa,  
You wanna be God's Right Hand Man,  
You wanna thrash just like Rob Zombie.  
When you're ready to Jam!

Nobody but you, is ever gonna make it happen, Nobody  
but you, is ever gonna get in the way.  
Nobody but you, is ever gonna make it happen. No, No  
nobody but you, stands in the way.
