On and on and on and on  
I never get a chance to catch my breath  
On and on and on and on  
I'm working myself to an early death

I work every day from 9 to 5  
I make barely enough just to stay alive  
I'm feeling frustrated and I don't know why  
I just sit and watch the system bleed me dry  
No time for college, I got bills to pay  
I work my fingers to the bone for minimum wage  
Straight out of school to the employment line  
They say I ain't got no skills, I'm wasting their time

I just got paid, my money's already spent  
My building's going co-op, so they raised my rent  
I can't afford to buy the things I need  
My pockets are empty and I got kids to feed  
Tomorrow's gonna be like yesterday  
Just deeper in debt with more bills to pay  
Everything I own I'm forced to sell  
I'm not living in America, I'm living in hell
