

S.F.A. "Purge"

You don't have to look far to see filth and grime
Our daily lives are filled with perversion and crime
A dealer on the corner, some whores down the block
It's an everyday sight, it comes as no shock
No arrests are made, the politicians are corrupted
This is the world they made, it's time we disrupt it
Justice can't be brought through legal demands
The only way to do it is with the law in our hands
Purge!â€¡Bring down the state
You rally and protest, your voices go unheard
You've got to change tactics
Actions speak louder than words
Democracy is a sham, it's all been prearranged
Bombs, not ballots, is the only way to bring a change
World history is approaching it's darkest hour
We can turn back the clock, we've got the power
We are the new morality, the power is in our hands
We can sweep across the nation and purge the land
Politicians and evangelists all spread the lie
For their injustice to humanity, they'll have to die
Today's robber barons must be assassinated
Drug dens and porno houses must be incinerated
We're the new morality, our numbers are vast
We can build a new future as we burn down the past
We'll show no mercy, no hesitation
Might makes right, we're gonna purge the nation
Purge!â€¡Bring down the state
