"Live Forever"

Since I met you baby
We've been connected somehow
We don't tell each other why
I just look into your eyes
And see a new day coming
You must be blessed with something
I'm so happy I could cry
'till we enter paradise
We're gonna live forever
That's my belief in you and I
If we stick together
We're gonna live forever
That's why I believe in you and I
We stick together
We're gonna live forever
Until the end of all time
I'm gonna be by your side
We don't need a second try
I just know within my mind
I feel the world is turning
Deep in my heart I'm burning
I'm so happy I could cry
'till we enter paradise
We're gonna live forever
That's my belief in you and I
If we stick together
We're gonna live forever
That's why I believe in you and I
We stick together
We're gonna live forever
Until the end of time
May this be written in your mind
In all kinds of weather
People like us are meant to live forever
Meant to live forever
When ever life strikes you down
Be asured I'll be around
