Assholes and opinions, everyone's a saint  
I say don't discriminate  
Let's increase the hate  
Manipulating governments,  
The t.v. is their tool  
God is saying just be praying  
Everything is cool  
Preachers praying on their flock  
Mounting them on holy cock  
Shove a bull whip up your ass  
Call it art, I have to laugh  
Our world is run by power hungry,  
Selfish, greedy pricks  
They want us to divide,  
Unite and turn the tide  
Kill, kill, kill  
Kill the assholes! kill all the assholes!  
We're gonna rise, unite and turn the tide  
Join in the fight, kill the assholes tonight!  
Politicians, looking to get their pecker piped  
Jesus freaks killing in the name of human rights  
Ozone decay, what's the fucking deal  
Looking for a meteor in your unhappy meal  
Space ships, aliens, titanic sinks again  
Peace in the middle east  
When will the madness end ?  
Our world is run by power hungry, selfish greedy pricks

they want us to divide, unite and turn the tide  
Kill, kill, kill  
Kill the assholes! kill all the assholes!  
We're gonna rise, unite and turn the tide  
Join in the fight, kill the assholes tonight!  
When the toilet is full you flush down the waste  
And our toilet is full and is floating in space  
We're human waste floating in space  
Human waste
