One, two, one, two, three  
Yeah, yeah, oh, oh  
Ooh, yeah  
Do do do do

Creepin' up on you is the wrong thing to do  
I found your address got your phone number too  
Visit all the stores where you buy all your clothes  
Been to secret places you think nobody knows

If I have to breathe without you  
Nobody could  
I need to be around you  
Watchin' you

No one else can love you like I do  
Feel it when I'm creepin' up on you  
I know that it wouldn't be right  
If I stayed all night  
Just to peek in on you  
Creepin' up on you  
Creepin' up on you

I been hangin' round all the places you haunt  
Spyin' on your friends to find out what you want  
Drinkin' from the glass that you left on the bar  
Follow you around drivin' home in your car

Do I have to breathe without you?  
'Coz nobody could  
I need to be around you  
Watchin' you

No one else can love you like I do  
Feel it when I'm creepin' up on you  
I know that it wouldn't be right  
If I stayed all night  
Just to peek in on you  
Creepin' up on you  
I'm creepin' up on you

I know this must be wrong

It can't go on  
This kind of thing  
It's taking all my sanity and making a mockery

This must be wrong  
It can't go on  
So won't somebody free me from this misery  
Bring my baby closer to me, yeah, yeah?

Do do do do  
Do do do do  
Do, yeah, oh

'Coz no one else can love you like I do  
You feel it when I'm creepin' up on you  
I know that it wouldn't be right  
If I stayed all night  
Just to peek in on you  
Creepin'

No one else can love you like I do  
Feel it when I'm creepin' up on you  
I know that it wouldn't be right  
If I stayed all night  
Just to peek in on you  
Creepin' up on you

'Coz no one else can love you, no, no, like I do  
And when I peekin' in on you  
Watchin' everything you do

'Coz noone else can love you, no, like I do  
No one else should love you, no, like I do  
Baby creepin' up on you  
Watchin' everything you do, yeah

No one else can love you, no  
No one else should touch you, no  
No one else can love you, touch you  
Love you, be with you  
No, let me do, ooh  
Since I do
