Ohhh ohhh Yeah Uh uh

I saw the sun, eclipsed by the moon;
the light in this place, the clouds were taking shape.
From the dark, barely give rain,
the sky then cracked.. I knew you'd be here soon

Feel the breeze, the sound is deafening
through the trees, your love is beckoning.

Please don't even try, to explain the reasons why,
Fallen angel
(you're my) Fallen angel,
(and you know)
There's no place to hide,
you have come down from the sky,
Fallen Angel (cos' your my) My fallen angel (you're just
alright)
Mmm..
Oooh.

The severed man.. wasn't meant to fly,
But I built you wings, and pointed you at the sky.
And you felt, like eternity; I was trapped in fear;
Lost without you here.

Through the crack, the sky was opening,
and through the black, my love was coming back.

Please don't even try, to explain the reasons why,
Fallen angel (you're my)
Fallen angel, (ohh)
There's no place to hide,
you have come down from the sky,
Fallen Angel
(cos' your my)
My fallen angel
you know)

Please don't even try, to explain the reasons why,
Fallen Angel (ohh) My fallen angel.
There's no place to hide,

you have come down from the sky,
Fallen Angel. My fallen angel, It's alright.

Ooh.

I see the danger.
The separation.
I want a dear invitation. Nooo.

Ooh ooh ooh.

See you falling from the sky,
Said it lessens in my eyes.
See the tears they gave in vain,
see them lost and over reign.

See my blister in the sun,
See my sinus on the run,
I feel restless; I was wrong,
You were coming all along.

Please don't even try,
Don't explain the reasons why,
Fallen angel, (no), my fallen angel,
There's no place to hide,
You have come in from the sky,
Fallen angel, ohh, my fallen angel, (you know)..

Please don't even try,
Still explain the reasons why,
Please, No no no, please, fallen angel, No, No,
Fallen angel..

There's no place to hide,
you have come in from the sky,
Fallen angel, (no),
Fallen angel, (no no no),
Please don't even try.
