"Heart Attack"

Visit "[Heart Attack](#)" on MotoLyrics.com

I've cracked, my temper's spat
Hot coal fire and acid jack
I've been used I feel abused
Something you've done has lit my fuse

And I take my theories back
Maybe karma ain't all bad
'Cause you do whatever you please
Everybody else is left to bleed

You're a heart attack
And your heart is black
It's whack your mind is jacked
How did anybody ever get like that?

You're a heart attack, you stabbed me in the back
If you pull your punches, Jack
I'm taking everything back
You hit me harder than a heart attack

We used to stick together
You and me stay that way forever
But now to my surprise
You've become what we despised

What's that they're telling me?
Sleeping with the enemy
Going down on dirty sheets
Didn't nobody tell you how to be discreet?

You're a heart attack
And your heart is black
It's whack your mind is stacked
Tell me how did anybody ever get like that?

You're a heart attack, you stabbed me in the back
If you pull your punches, Jack
I'm taking everything back
You hit me harder than a heart attack

You're dancing while I'm dying
Laughing while I'm crying

Denying the mess you made
Your true colors are clashing

This airplane is crashing
It's smashing, were you even there?
'Cause I don't think you care
About anyone but yourself, no

Go run but you can't hide
Actions they can't be denied
Once thing keeps buggin' me
Tell me how you sleep at night

I need to set things right
Shake things up
Modify, change plans and break the rules
Play the game like you do fool

You're a heart attack
And your heart is black
It's whack your mind is stacked
Tell me how did anybody ever get like that?

You're a heart attack, you stabbed me in the back
If you pull your punches, Jack
I'm taking everything back
You hit me harder than a heart attack

You're a heart attack
And your heart is black
It's whack your mind is stacked
Tell me how did anybody ever get like that?

You're a heart attack, you stabbed me in the back
If you pull your punches, Jack
I'm taking everything back
You hit me harder than a heart attack

There you go again
I'm taking everything back, no
There you go
There you go again

There you go again
[Incomprehensible]
There you go, go
Bye bye now
